Ms. Felicia Miller, Energy Commission Project Manager  
1516 Ninth Street  
Sacramento, California 95814-5112

SUBJECT: Request for Agency Participation in the Review of the Huntington Beach Energy Project Application for Certification (12-AFC-02)

Dear Ms. Miller:

The County of Orange has reviewed the Request for Agency Participation in the Review of the Huntington Beach Energy Project Application for Certification (12-AFC-02) and offers the following comments:

**Environmental Resources:**

In response to your request for input on the subject project, Environmental Resources has reviewed the document, and offers the following comments:

1. This development should conform to project-level requirements of Section 7, New Development / Significant Redevelopment, of the Orange County Drainage Area Management Plan (DAMP) – [http://ocwatersheds.com/Documents/2003\\_DAMP\\_Section\\_7\\_New\\_Development\\_Significant\\_Redevelopment.pdf](http://ocwatersheds.com/Documents/2003_DAMP_Section_7_New_Development_Significant_Redevelopment.pdf). Implementation of post-construction Best Management Practices consistent with the Model Water Quality Management Plan for Orange County (<http://ocwatersheds.com/DocmgmtInternet/Download.aspx?id=637>) should be required for a priority project such as this, which would include preparation of project Water Quality Management Plan(s).
2. The project would be subject to the General NPDES Permit for Discharges of Storm Water Associated with Construction Activity, Order 2009-0009-DWQ, as may be amended or numbered upon re-issuance.

If you require any additional information, please contact Grant Sharp at (714) 955-0674.

Sincerely,

Michael Balsamo  
Manager, OC Community Development  
OC Public Works/OC Planning  
300 North Flower Street  
Santa Ana, California 92702-4048
